

CHECKLIST FOR OBTAINING CATERER PERMIT

Definitions:

Caterer: any person/entity who operates from a permitted food facility where food is prepared or stored then delivered and/or served at an off premises caterer function. Per California Retail Food Code, caterers are required to have a valid Environmental Health permit.

Off-Premises Caterer Function: a private caterer function (weddings, birthdays, etc.) or public caterer function (individual business functions, non-profit organization fundraiser, etc.) where a caterer provides food and related services for a person or persons at a location other than their permitted food facility.

Cook-for-Hire: any person hired to prepare and/or serve food at a private home. No catered food is provided by the cook-for-hire, and no equipment is stored, or handled at the clients' private home. All food prepared by a cook-for-hire is handled at the location of the private home where the client provided the food, utensils, equipment, and kitchen. No Environmental Health permit is required since only food preparation services, not food, are offered for sale/service at a private home.
