

Bloodborne Pathogens (BBP) Training Courses

BBP training which meets Cal/OSHA's Bloodborne Pathogens Standard 8 CCR 5193 is required for persons who may be exposed to BBP while performing their routine work functions. This includes, but not limited to: tattoo artists, permanent cosmetics professionals, and body piercers. Additionally, Cal/OSHA and The Safe Body Art Act (AB 300) requires that the training and training material must be **specific to performing body art**. BBP training contact time must meet a **minimum of 2 hours**. Training must be renewed annually. Records must be kept for a minimum of 3 years. Should a class be taken that does not meet these requirements, County of Santa Clara Department of Environmental Health (DEH) will require that another training class be taken following the same requirements. DEH is not responsible should a class be taken that does not meet these standards.

Company Name	Course offered	Contact information	Website
