## FOOD SAFETY TRAINING and EXAMINATION PROVIDERS

**Most retail food facilities in California are required to employ at least one person who is certified in food safety. Certified individuals shall be recertified every five (5) years by passing an approved and accredited food safety certification examination.**

To assist Santa Clara County food facilities, the Department of Environmental Health maintains this list of schools and private companies, known to us, who provide training and exams at locations in Santa Clara County. **Please contact the individual providers directly to obtain information regarding their local class schedule and fees.**

**Please be advised that inclusion on this list is in no way to be considered an endorsement of the actual training provided. In addition, Santa Clara County is not responsible for the services offered by those on this list.**
